

Inside the VA/DoD Collaboration Guidebook for Healthcare Research

National Cyber Seminar
June 23, 2011

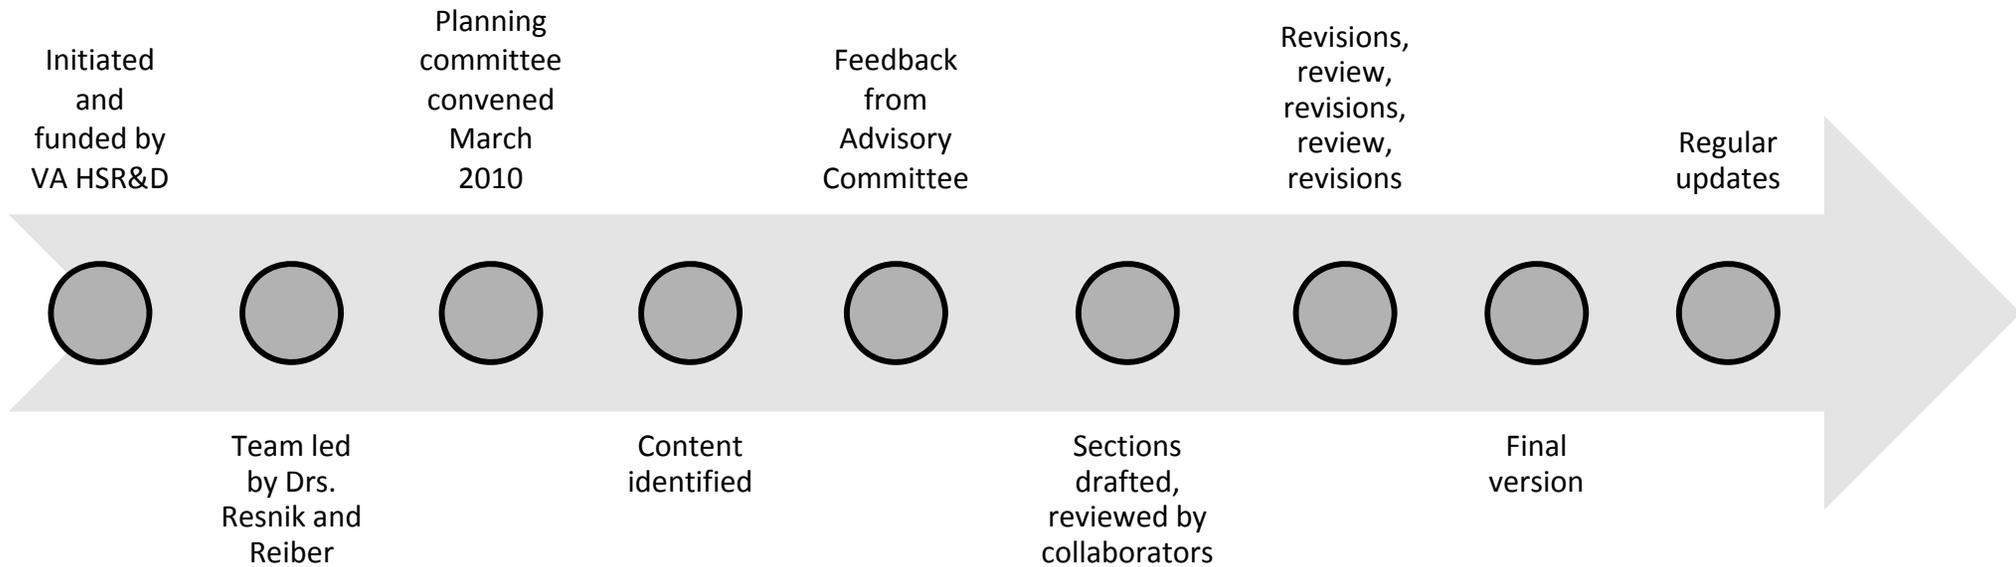

Purpose

The purpose of this Guidebook is to facilitate collaborative human subject healthcare research between the Department of Veterans Affairs (VA) and the Department of Defense (DoD)

History of Guidebook Project

Authors

- Linda Resnik, PT, PhD
- Gayle Reiber, MPH, PhD
- Pam Steager
- LTC Rachel Evans, PT, PhD
- Kate Barnabe, MHA
- Katie Hayman, MBA

Acknowledgments

Ben J. Balough, CAPT, MC, USN

US Navy Medicine Research and Development Center

LTC Teresa L. Brininger, PhD, MBA, OTR/L, CHT

US Army Telemedicine and Advanced Technology Research Center

Laura Ruse Brosch, RN, PhD

US Army Office of Research Protections

Amy Centanni, JD

VA Office of Research & Development

Douglas B. Cooper, PhD

Military Brain Injury Rehabilitation Research Consortium

Rory Cooper, PhD

VA Pittsburgh Healthcare System

Michael Dandenault, PhD

Defense and Veterans Brain Injury Center

Marla J. De Jong, Col, USAF, NC, PhD

TriService Nursing Research Program

Seth Eisen, MD, MSc

VA Health Services Research & Development

COL Charles C. Engel, MD, MPH

DoD Deployment Health Clinical Center

Christine Fitzgerald, MPH

VA Providence Medical Center

Robert Gailey

VA Functional Outcomes Research & Evaluation Center

Joel Glover

US Army Medical Research and Materiel Command

Dr. Andrew Guccione, PT, PhD, DPT, FAPTA

VA Health Services Research & Development

COL Janet Harris, RN, PhD

US Army Clinical & Rehabilitative Medicine Research Program

Robert Jaeger, PhD

VA Rehabilitation Research & Development

Robert N Kang, Lt Col, USAF, OD, PhD

USAF Chief, Life Sciences and Human Factors

Annmarie Kelleher, MS, OTR/L, ATP, CCRC

Human Engineering Research Laboratories

LTC Molly Klote, MD, CIP, MC

DoD Clinical Investigation Regulatory Office

Regina Lynch

VA Providence Medical Center

Cheryl C. Odle, MBA

Edward Hines, Jr. VA Hospital

Mark D. Packer, Lt Col, USAF, MC, FS

DoD Hearing Center of Excellence

Theresa L. Pape, BS, MA, DrPH

Edward Hines, Jr. VA Hospital

Melissa A. Polusny, PhD, LP

Minneapolis VA Health Care System

Mary Jo V. Pugh, PhD, RN

South Texas VA Healthcare System

Karen S. Quigley, PhD

Center for Health Quality, Outcomes and Economic Research,

Laura Thompson

VA Providence Medical Center

Jason M. Wilken, PhD, MPT

Military Performance Lab Center for the Intrepid

What's in the Guidebook?

Section I: Overview

Section II: Nuts and Bolts

Research infrastructure

Where to start

Seeking a collaborator

Planning a proposal

Administration of research funds

Formalizing an agreement

Human research protections

Data security and resources

Media relations/public affairs

Case examples

Recommendations

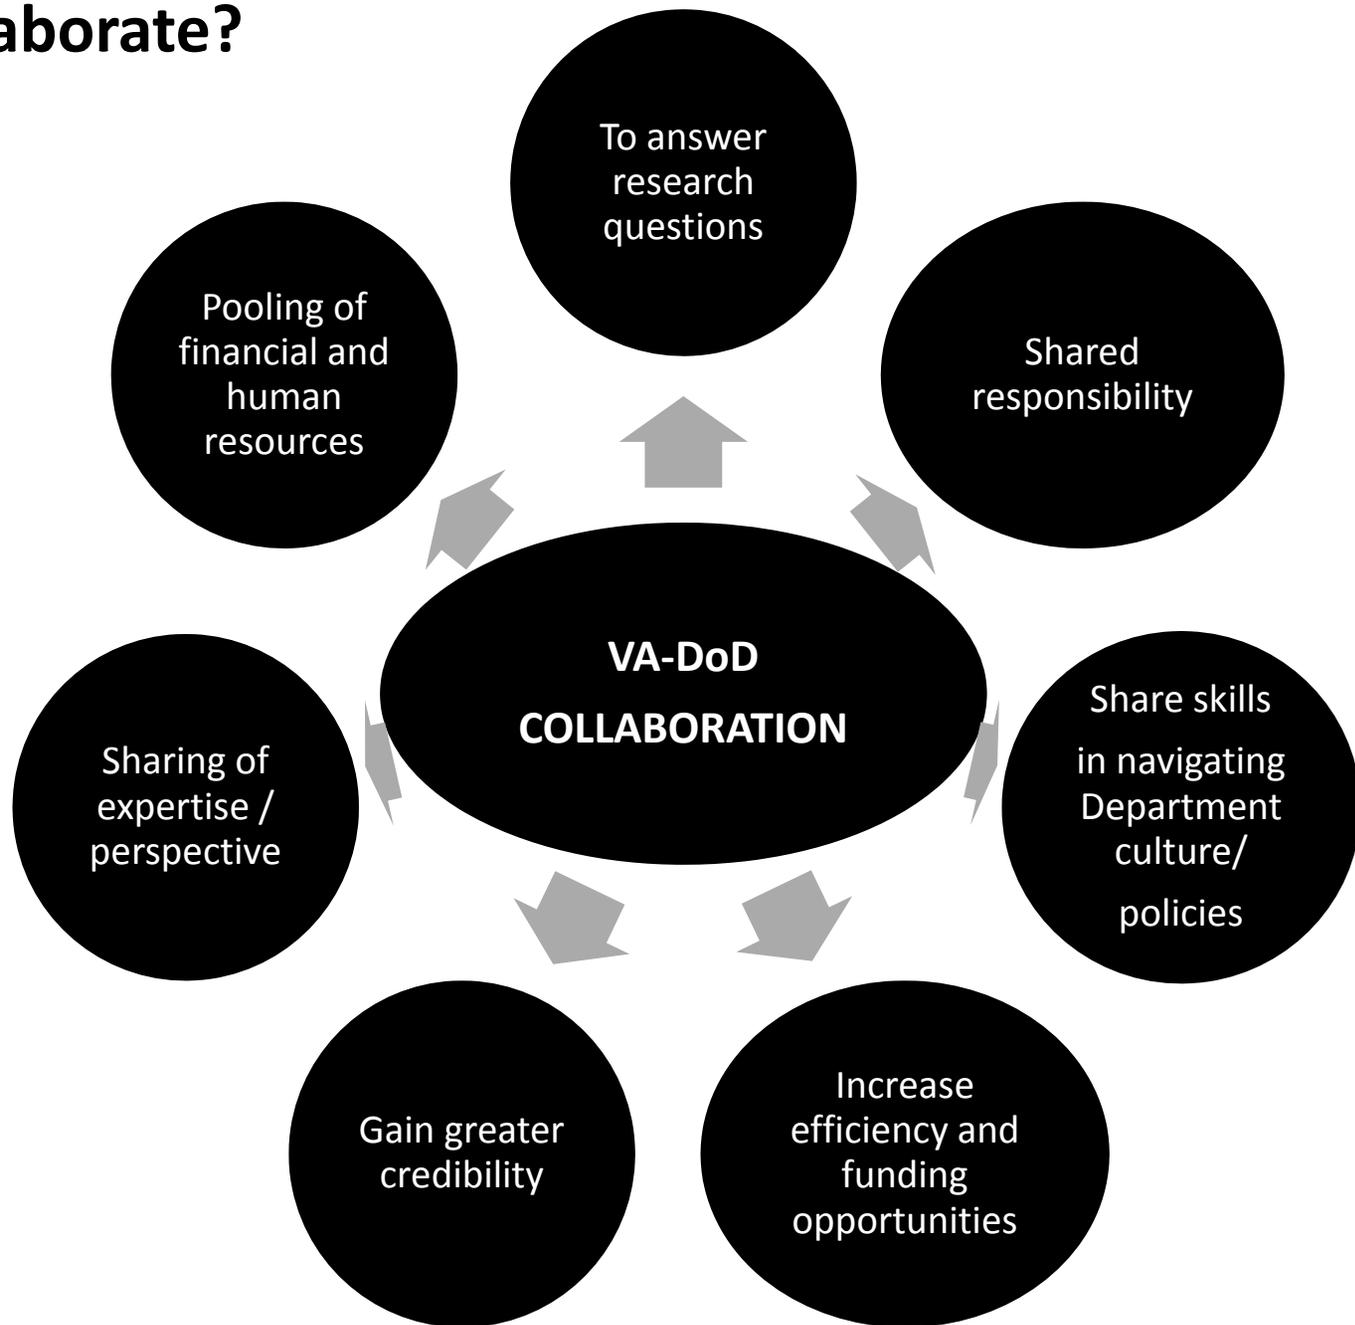

Section III: Appendices

Acronym list

DoD Clinical Investigation Programs
by Region

Templates, sample documents

Why Collaborate?

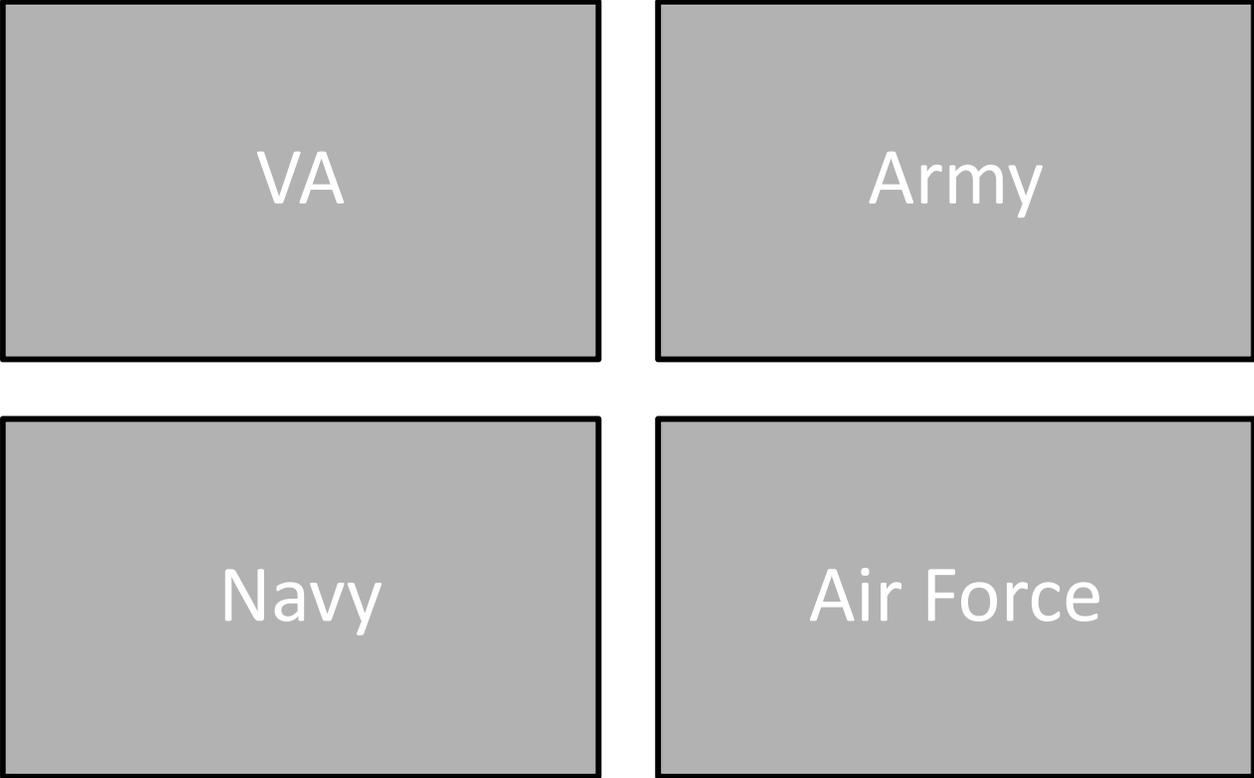

GUIDEBOOK TIP

Experienced investigators warn that it is inadvisable for an inexperienced assistant professor or junior investigator seeking an independent research career to be involved in collaborative projects as PI, due to the complexity and length of time involved.

Guide to Research Infrastructure

The Guidebook describes research infrastructure of:

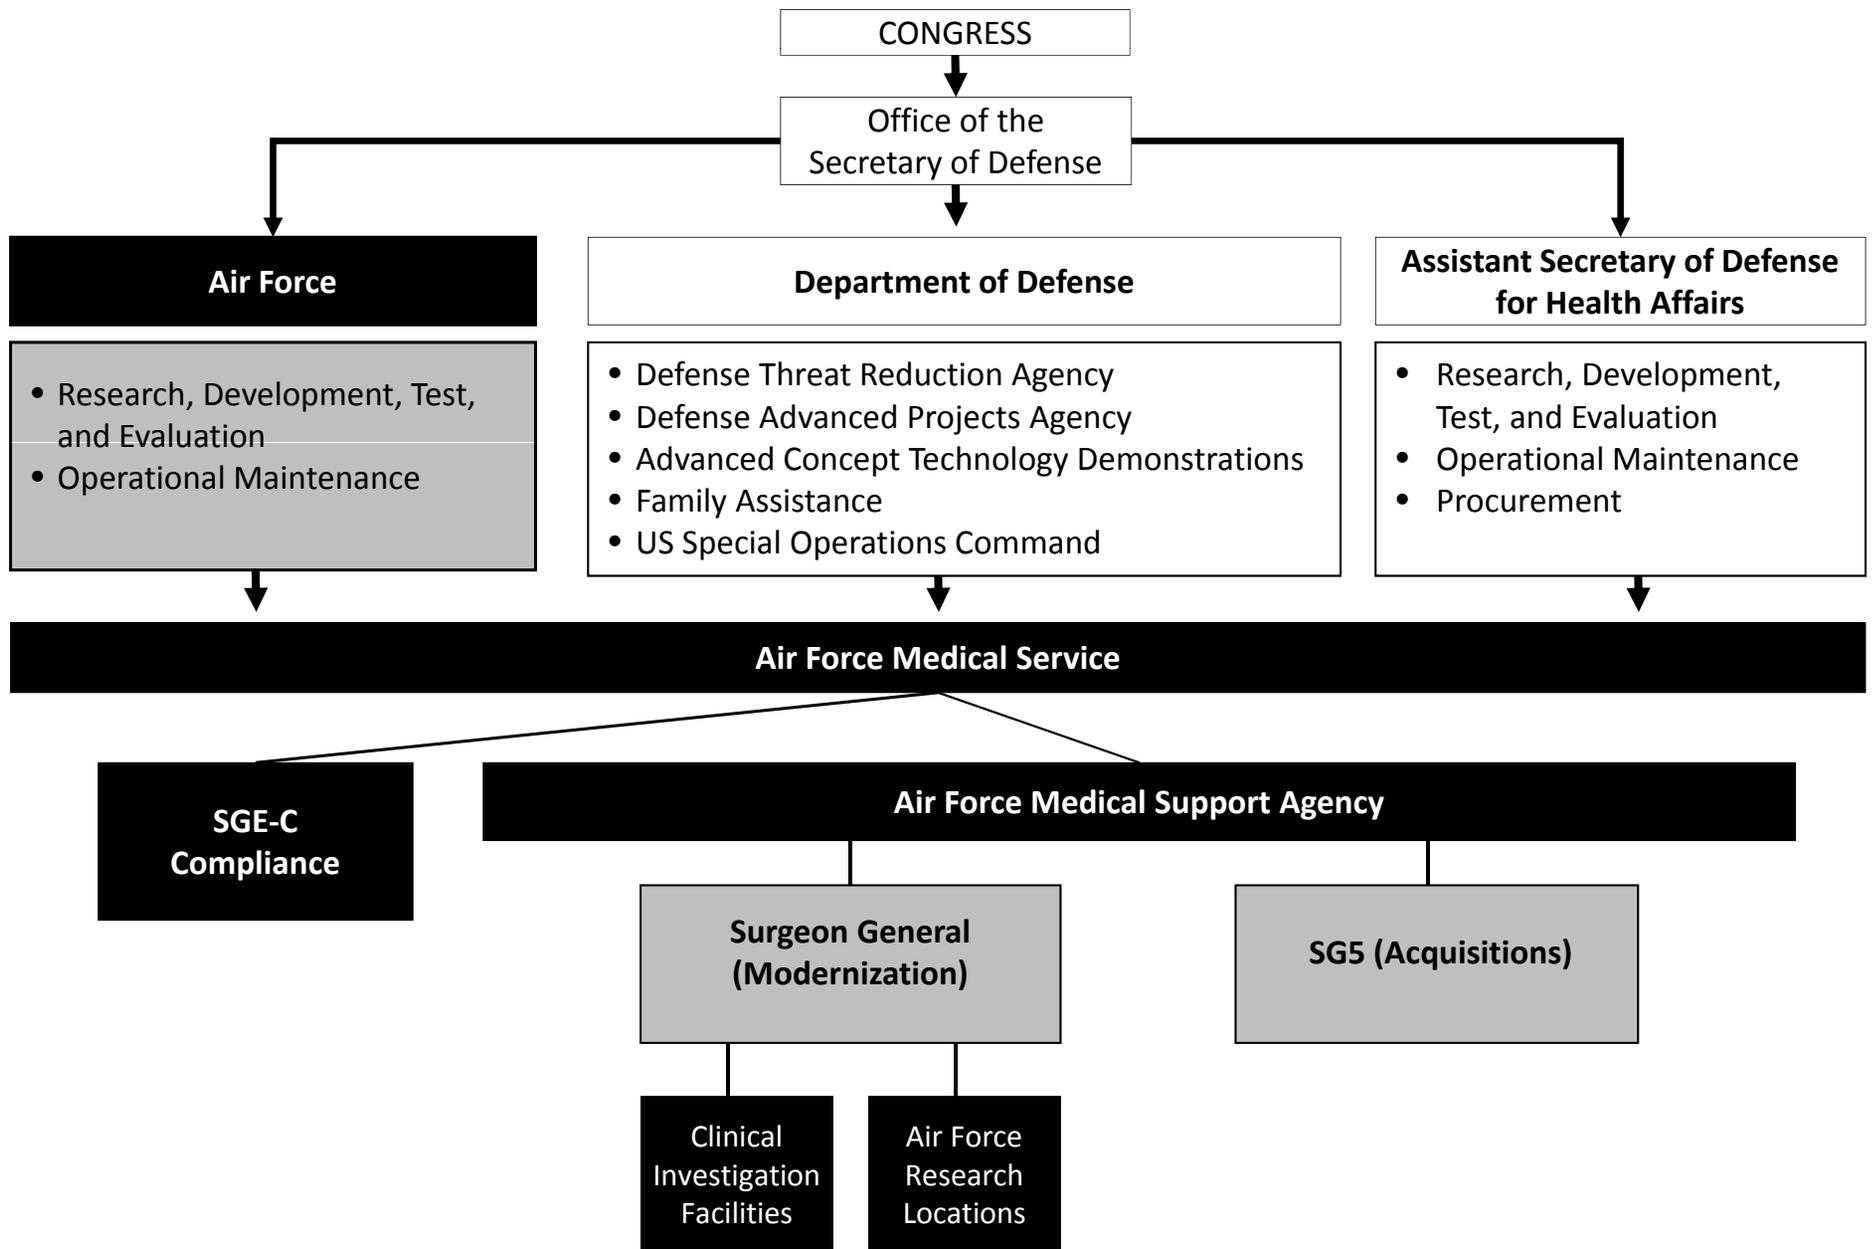

VA

Army

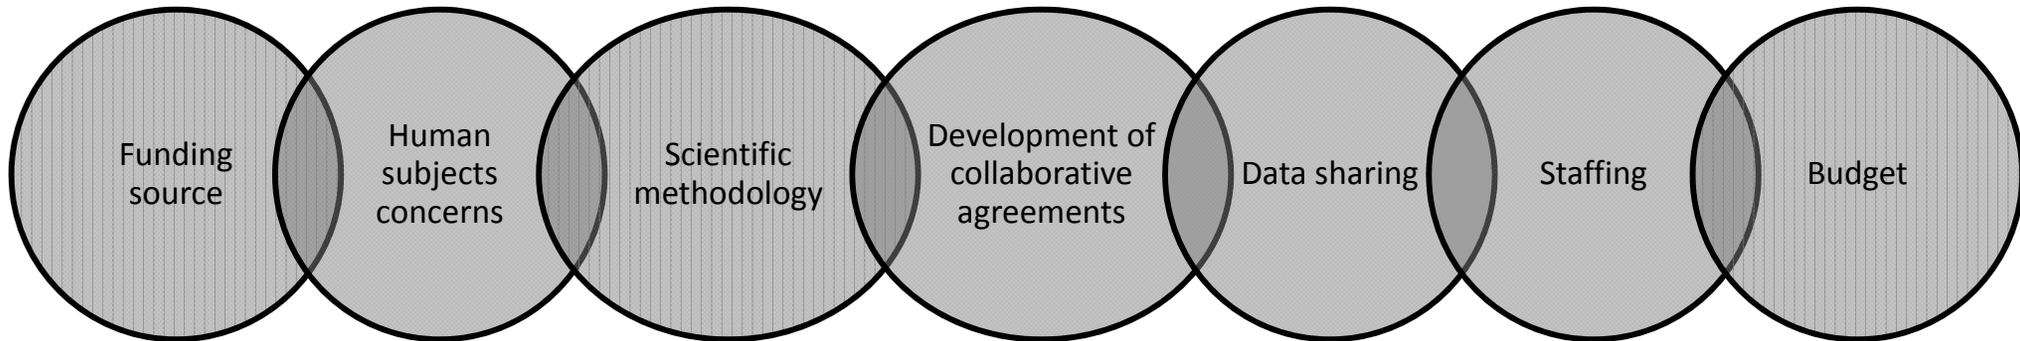

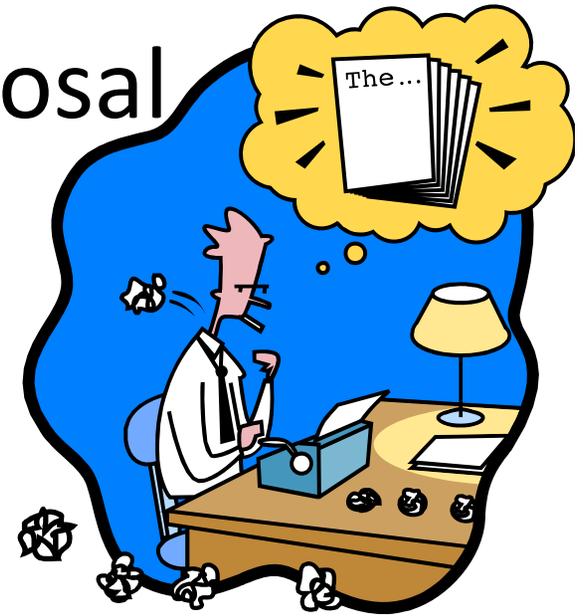

Navy

Air Force

Planning Your Proposal

Consider:

GUIDEBOOK TIP

When planning your research, develop a back-up plan for possibilities like collaborator reassignment or deployment.

Funding Sources

- Identifies sources of research funding
- Provides links to intramural and extramural funding announcements

DoD Research Funding Opportunities, Sources

SOURCE OF SUPPORT	TYPE OF AWARD	TYPE OF FUNDS (P6, P8)	WHO CAN SERVE AS PI?
US Army Clinical Investigation Program (CIP) http://fhp.osd.mil/cip.jsp	Intramural funding	P8	Military investigators
US Army Medical Research & Materiel Command https://mrmc.amedd.army.mil/index.cfm?pageid=medical_r_and_d.overview	Intramural funding to laboratories (i.e. ISR)	P6	Investigators assigned to military research laboratories
Telemedicine and Advanced Technologies Research Center http://www.tatrc.org/?p=funding_aamti	AAMTI funding	P8	Military or General Schedule (GS) investigators at MTF
Navy Commander's grants http://www.onr.navy.mil/Contracts-Grants/Funding-Opportunities.aspx	Local intramural funding	P8	Navy researchers at specific medical centers
Navy Clinical Investigations awards http://www.onr.navy.mil/Contracts-Grants/Funding-Opportunities.aspx	BuMed intramural funding	P8	Navy researchers at any Navy MTF (collaborations permitted)
Wounded, Ill and Injured Program (WII) http://www.onr.navy.mil/Contracts-Grants/Funding-Opportunities.aspx	BuMed intramural funding	P8	Military investigators (collaborators permitted)
Office of Naval Research (ONR) http://www.onr.navy.mil/	Intramural and extramural	P6	Military, industry, academia in defined program areas
Air Force Clinical Investigation Program http://fhp.osd.mil/cip.jsp	Intramural funding	P8	Military investigators
Air Force Intramural Research http://www.wpafb.af.mil/library/factsheets/factsheet.asp?id=8981	Research management working group	P6	Air Force researchers in DoD facilities working on established Air Force thrust areas

Get Leadership Involved!

Meet with your proposed collaborator, members of their leadership team and research infrastructure to cement the relationship and ensure that everyone is on board.

Administration of Funds

Highlights key aspects of administration of funds including:

Hiring
personnel

Travel

Consultants

Supplies and
Equipment

Stipends

Formalizing an Agreement

Cooperative Research and Development Agreement (CRADA)

- Legal, enforceable agreement
- Usually between a federal agency and one or more non-federal parties

Memorandum of Agreement (MOA)/ Memorandum of Understanding (MOU):

- Binding legal document that holds parties responsible to their commitment or outlines a partnership

Key Content Areas for Research Agreements

Resource Sharing

Research Reporting

Roles & Responsibilities of Each Party

Negotiating and Protection of Intellectual Property

Data Use Issues

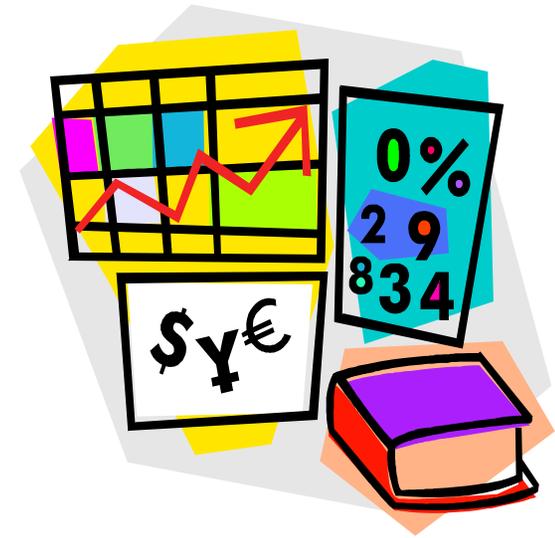

Human Subjects Issues

TIPS for Navigating VA and DoD IRBs

- ✓ Have experienced assistance for each party
- ✓ Identify which IRBs must approve
- ✓ Check with all IRBs as they may have differing requirements
- ✓ Leave plenty of extra time to prepare the application(s)
- ✓ Have a contact person at each IRB; contact that person to ensure you are using the most current forms & templates
- ✓ Have each IRB “pre-review” the application
- ✓ **The IRB approval process for a multi-site project is a serial process and can take between 12-18 months.**
- ✓ Develop an appropriate timeline prior to grant submission
- ✓ Get letters of support and/or signed impact statements from all departments and services
- ✓ Have a trained, qualified Principal Investigator at each study site

Data Sharing and Resources

- Access to medical records and protected health information is limited to research and/or clinical staff within each agency
- Working out a data collection, sharing and analysis plan is critical to the success of a collaborative project

Data Sharing and Resources

VA Data Sharing Agreements

- CRADA
- Data Collection Agreement
- Data Use Agreement (DUA)
- Business Associates Agreement (BAA)

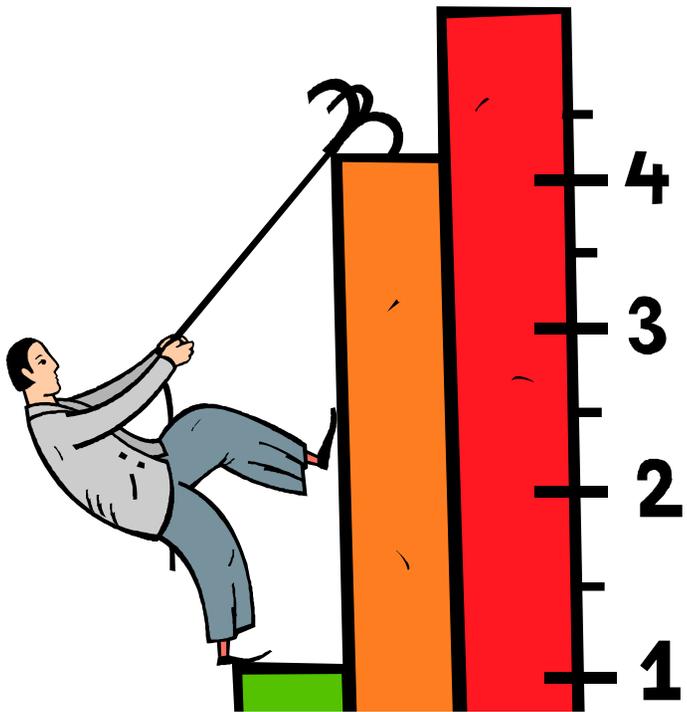

DoD Data Sharing Agreements

- TRICARE Management Activity DUA
- BAA
- Computer Matching Agreement (CMA)

GUIDEBOOK TIP

Both VA and DoD facilities require varying levels of security clearance, credentialing, appointments (i.e. VA WOC) and information security access requirements.

This process can be lengthy and can hold up study activities if not done in advance.

Case Examples

HEROES Project

Severe TBI studies

Community
Reintegration Project

Mentored Research
Training Initiative

Empirically-Based
Cognitive Rehabilitation:
the SCORE Study
Collaboration

National Survey of
Service Members and
Veterans from Vietnam
and OIF/OEF with Major
Traumatic Limb Loss

Questions

1. How did you identify collaborators and build collaborative relationships for your research?
2. What has been the greatest challenge and the greatest reward you've encountered as a result of collaborative research?
3. How was your research funded?
4. Did you encounter start-up delays? If so, do you have any advice for other investigators as to how these types of delays could be avoided?
5. What type of agreement did you have between the VA and DoD? How long did it take to formalize your agreement?
6. Please share your top two recommendations to investigators contemplating collaborative research
7. Please talk about your experience in working IRBs from several Departments
8. What special considerations have you encountered for PR and Media?
