

*VA Health Services Research & Development Service*

## **Nomination Package: Health System Impact Award**

---

### Award Criteria

This award honors HSR&D- and QUERI-funded research that has had a significant impact on the health of Veterans and healthcare in VA. Nominations should represent examples of outstanding research that have been successfully translated into VA's policy or operations, or that have otherwise had effective, system-wide implementation. Nominations can be for individual or team achievement.

### Nomination Materials

- Two letters (each not more than two pages)
  - A letter from a senior VA HSR&D investigator describing the research impact (to include the level, i.e., local, regional, national) and summarizing its value for Veterans health or the VA healthcare system as well as its sustainability (as applicable)
  - A letter from a VA end-user of the research (outside of VA HSR&D) that describes the impact of the work on policy, and/or VA program or operational area.
- Completed nomination package checklist and nomination form that includes current contact information for the nominee.
