

2015 HSR&D/QUERI National Conference

Health Services Research for a **Veteran-Centered** Learning Organization

Special Competition for:

VA Post-Doctoral Health Services Research Trainees and Fellows

Best Trainee Poster

Abstracts are due March 16, 2015

To recognize the contributions to VA of the trainees and fellows supported by the Office of Academic Affiliations (OAA) and the Health Services Research and Development Service (HSR&D), the Annual Poster Competition for Post-doctoral Trainees and Fellows will be held in conjunction with HSR&D/QUERI National Conference in July 2015.

If you are an HSR&D/OAA-funded post-doctoral fellow/trainee (clinician or non-clinician) in Health Services Research or Medical Informatics, and you have a poster abstract accepted for the HSR&D/QUERI National Conference, you are eligible for the competition for the Best Trainee Poster.

Individuals currently in post-doctoral programs co-sponsored by OAA and HSR&D*, or those who have completed these programs in the past year, are eligible for this competition. The research to be presented must be relevant to VA and recently completed (or at an advanced stage, if ongoing). Only one poster from each awardee will be eligible for competition.

Posters will be reviewed by a jury during the National Conference. The best poster by an HSR&D post-doctoral trainee or fellow will be recognized from the podium on the final day of the National Conference.

*Support for the Medical Informatics Fellows is also provided by the Office of the Chief Information Officer and the National Library of Medicine.

Please see detailed information regarding meeting theme and topic areas in the HSR&D/QUERI National Conference 2015 Call for Abstracts. Instructions for abstract submission are available online at www.hsrd.research.va.gov/meetings/2015.

Authors will be notified of the committee's decision by April 20, 2015.
