Recent News from OCC and the VC CORE

VC CORE July Cyberseminar
Last month, VC CORE investigators Amy O’Shea, Taona Haderlein, and Samantha Connolly presented in the second of our VC CORE Cyberseminar Series, entitled *Disparities in Telehealth Use During COVID-19 Described Three Ways*. It is clear that the broad topic of these three distinct presentations is of great interest to the field as over 600 registrants signed up, and 350 participants attended the cyberseminar. We heartily thank our presenters and their teams for dedicating their time and sharing their findings with the community!

Those individual presentations were titled:
- *How to Measure Broadband Access and the Implications for Virtual Care*; Amy O’Shea, PhD, Bjarni Haraldsson, MS, Ariana Shahnazi, PhD, Kailey Mulligan, BA, Peter Kaboli, MD, MS
- *Assessing Disparities in VA Telehealth Use During the COVID-19 Pandemic*; Taona P. Haderlein, PhD, MA, Donna L. Washington, MD, MPH, Alison B. Hamilton, PhD, MPH
- *Predictors of patient and provider use of 1elemental health within the Department of Veterans Affairs during the COVID-19 pandemic*; Samantha Connolly, PhD

The PDF and recording of the cyberseminar are available in the HSR&D website; link in the table of past presentations below!

HELP WANTED

The Improving Access through Virtual Care Focused Area of Research (TeleFAR) group at the Durham COIN is collecting qualitative interview guides and questions about virtual care and virtual care use to build a virtual care measure bank for qualitative and mixed-methods research. For questions and submissions, please contact Caitlin Sullivan ([Caitlin.Sullivan2@va.gov](mailto:Caitlin.Sullivan2@va.gov))
HSR&D will fund VA researchers and evaluators to spend time in clinical programs or VISN offices to help with analysis and to help bring research knowledge to policy and program planning. The following positions were approved by HSR&D:

1. **Office of Mental Health & Suicide Prevention, Vocational Rehabilitation Service**: Economic Analyses of Compensated Work Therapy
2. **Office of Connected Care**: Economics & Cost-Effectiveness of VA Telehealth

**Call for papers on Healthcare System Recovery Post COVID-19.** Topic includes handling deferred care, staffing innovations, employee and patient safety (mentally and physically). Main goal being the collation of evidence on issues to generate solutions helping to rebuild healthcare and offer resilience and especially future sustainability.

**Information can be found [here](#).** 9/30/2021
