Recent News from OCC and the VC CORE

VC CORE Needs Assessment
Thank you to the 100+ Members of the Virtual Care CORE who have taken the time to complete our initial needs assessment. As our network has grown considerably, we are soliciting further responses to get a more complete idea of how we can better engage you all. If you are receiving email reminders about our needs assessment, please consider taking a few minutes to give us your feedback! Responding to the Needs Assessment will help us by:
- Confirming your ongoing interest and membership in the VC CORE Network
- Giving us important input to help shape our priorities for the upcoming year to best serve the VC CORE Network
- Telling us how we are doing so far

We thank you in advance for your responses and look forward to incorporating your feedback!

HELP WANTED
The Improving Access through Virtual Care Focused Area of Research (TeleFAR) group at the Durham COIN is collecting qualitative interview guides and questions about virtual care and virtual care use to build a virtual care measure bank for qualitative and mixed-methods research. For questions and submissions, please contact Caitlin Sullivan (Caitlin.Sullivan2@va.gov).

Members from the Virtual Access QUERI led by Dr. Donna Zulman would like to interview cardiology providers to learn more about providing care via video visits, and to better understand how specialty care providers have been impacted by VA technology initiatives during COVID-19. The interview will be conducted by Caroline Gray, PhD, a researcher at the Palo Alto VA, will last no longer than 30 minutes, and to ensure no interruption to clinical responsibilities, we are happy to accommodate schedules as necessary. Please reach out to Camila at Camila.Chaudhary@va.gov.

Funding and Presentation Opportunities and Deadlines
