**Job Opportunity: VA Virtual Care Project Coordinator**

Dr. Eric Hermes and the HSR&D Pain Research, Informatics, Multimorbidities, and Education (PRIME) Center at the VA Connecticut Healthcare System, is seeking to fill a Project Coordinator position to oversee the management of health services related VA research studies oriented towards virtual care.

**Job Details and Description:**
- Full-time (40 hours/week)
- Tentative start date: July through November 2021.
- This position is anticipated to be an in-person position, but there may also be tele-working arrangements available.

The Project Coordinator will oversee and coordinate multiple research projects simultaneously, which include multi-site effectiveness and implementation trials as well as pilot trials. Example responsibilities include:
1. Lead research team of other research personnel and facilitate research team meetings
2. Track and maintain study goals and timeline
3. Monitor procedures for implementation, recruitment, screening, enrollment, and intervention delivery
4. Maintain IRB approval and other regulatory requirements
5. Coordinate research activities and approvals at multiple sites
6. Work with Principal Investigators to disseminate research through reports and manuscripts
7. Work with the research team to develop new research ideas and projects

**Requirements:** Master’s degree in allied health science field with three years of related experience, or a doctorate in an allied health science field with 1 year of related experience. Candidates with degrees in public health, health services research, epidemiology, psychology, health sciences (or related field) and experience in research in healthcare-related settings will be considered. Knowledge and skills in project management, familiarity with IRB and research regulations, and willingness to learn and work collaboratively are required. Experience managing multiple projects and proficiency with Microsoft Office including Outlook, Word, PowerPoint and virtual meeting platforms preferred. Must be highly motivated, organized, and autonomous with excellent multi-tasking ability and record-keeping, and possess a professional demeanor with excellent interpersonal skills. **U.S. citizenship is required.**

**Contact:** Please E-mail a cover letter and resume to Eric Hermes, M.D. (eric.hermes@va.gov).
VC CORE Investigator Needs Assessment
Approximately half of our members completed our Needs Assessment Survey between Summer and Fall 2020. This input was instrumental in informing what activities we have prioritized so far. As we have grown by leaps and bounds over the past year, we hope to gather more of that helpful feedback! If you have not had a chance to fill the survey out before now, please take 15 minutes to click through and do so here.

Veteran Engagement Plans
As we took stock of our accomplishments over the past year, one improvement we would like to make in year two is to generate more Veteran engagement and inclusion in our activities and research. Having Veterans engaged in our work will provide valuable perspectives from our most important stakeholders. We are currently actively recruiting Veterans for specific activities, but will also create a broader Veteran Engagement Council to assist our research community.

Portfolio Review Progress
We have completed Phase 1 of the project, which consisted of reviewing titles and abstracts of approximately 1,500 potentially VC-relevant articles pulled from the HSR&D database. Over 350 projects have made it to Phase 2, which will involve categorizing projects, extracting specific technologies referenced, as well as the general topic(s) or condition(s) the study is addressing. Please reach if you are interested in learning more!
