Recent News from OCC and the VC CORE

OCC Partnered Cyberseminar
Many thanks to our presenters from the Office of Connected Care for an incredibly informative and useful Cyberseminar on completing partnered research this week. Sara DeRycke, John Murphy, Christy Armstrong, and Terry Newton provided an overview of the OCC organization and the types of measures studied within each division, as well as a forward-facing look at OCC’s strategic plan, analytic structure, and their focus on patient generated health data. Slides and recording will be up on the HSR&D cyberseminar catalog soon. If you were able to attend the event (or view the recording when it is up) we would love to hear your thoughts on the presentation. Your feedback will help us curate future content and programming to the needs of our research community.

HELP WANTED
Looking for some help with a research project? This section has you covered! Submit a short “want ad” to VHAVirtualCareCORE@va.gov & check monthly for ways to help your fellow researchers in the network!

Our Virtual Care Portfolio Review is now well underway! Currently, a group of CORE Team members is plowing through the Abstract Review phase of this project. It is a massive undertaking, as our keyword search turned up a whopping 1500 papers written since 2011. While most are excluded based on our criteria, we will still have many full papers to review shortly, and we are seeking volunteers from the network to help us complete that upcoming step. “Many hands make light work;” anyone interested in being a part of this incredibly impactful project, please send us an email! Thank you!

Funding and Presentation Opportunities and Deadlines

<table>
<thead>
<tr>
<th>Opportunities</th>
<th>Contact</th>
<th>Deadline</th>
</tr>
</thead>
<tbody>
<tr>
<td>Call for papers on Women Veterans’ Health and Health Care from JGIM sponsored by HSR&amp;D. Types of articles accepted include original research, concise research reports, innovation and improvement approaches, and those regarding implementation science</td>
<td>Information can be found here</td>
<td>6/1/2021</td>
</tr>
</tbody>
</table>
Topic includes handling deferred care, staffing innovations, employee and patient safety (mentally and physically). Main goal being the collation of evidence on issues to generate solutions helping to rebuild healthcare and offer resilience and especially future sustainability. Information can be found here 9/30/2021
