Ask me about: Using early preferred music to manage agitated symptoms of dementia; measuring agitation in nursing home residents with dementia; designing embedded pragmatic trials.

Dr. McCreedy's research focuses on pragmatic evaluation of nonpharmaceutical interventions for managing neuropsychiatric symptoms in people living with dementia. Dr. McCreedy received her MPH in Global Health from the University of South Florida, her PhD in Health Services Research from the University of Minnesota, and completed a postdoctoral research fellowship at Brown University, Center for Gerontology and Healthcare Research.
