NDS approval takes approximately 14 days from submission to approval if paperwork and submission are in order.

Requests for changes adds additional time on behalf of the Requestor.
Upon submission, the request is sent for an Initial NDS Review
- Verify completeness of request
- Verify documentation is valid
- Determine appropriate approvals needed
- Submit to additional reviewers as needed
- Request Changes as needed
- Deny the request if inappropriate use of DART
DART Processing - Added Reviews

- Reviews often include the need for approval by additional authorities such as ORD (for Real SSN requests), Privacy, Security, and other Data Stewards
- Reviews documentation relevant to them
  - Request Changes as needed
  - Deny their portion of the request as needed
  - Approve their portion of the request
- Upload approval documentation

Flowchart:
- Initial NDS Review
- Additional Reviews
- Final NDS Review
DART Processing - Final NDS Review

- Upon approval by additional reviewers, NDS conducts a Final NDS Review
- Ensures completeness
- Upload approval documentation
- Approves request
- DART automatically notifies study of approval
- After approval, Requestor can amend request as needed
Post-DART Approval

- Mainframe requests are routed to CDW who activates the previously requested Functional Task Codes. CDW will contact you when done.
- CDW/VINCI data requests are sent to VINCI for fulfillment. A VINCI Data Manager will contact you within a few days.
- “Other” data requests are routed to their respective data stewards for fulfillment.
- If VINCI Workspace is requested, VINCI will set up the study and then send out access information to individuals.
